## Allow us to focus on your business

Jordans Trust Company specialises in the creation and administration of UK and offshore companies and trusts, and has offices in the United Kingdom, Jersey, the British Virgin Islands, Cyprus, Hong Kong and the Seychelles.

From our UK office we can set up a variety of corporate and partnership structures to fulfil international trading activities and tax planning strategies. We provide a full range of services in-house, including director services, accounting services and company secretarial and nominee shareholder services. Plus, we can set up and administer trusts and provide tax advice.

It all adds up to a package that delivers cost and efficiency benefits for our clients and ensures consistency and quality.

### 10 reasons why the UK makes sense

- 1 The country offers the widest network of double tax treaties in the world
- 2 UK tax exemptions for foreign dividends and capital gains from substantial shareholdings
- 3 Absence of withholding taxation on dividends paid to offshore companies or trusts
- 4 Corporate Tax rates have fallen to 20% and will fall further
- 5 Generous audit exemptions
- 6 No minimum paid-up share capital
- 7 No capital duty
- 8 Flexible company law
- 9 A widely respected corporate image
- 10 EU (but non-UK) nationals can use UK companies for protection from general domestic anti-avoidance legislation under Community Law principles
